

Teacher Feedback on Google Classroom

Locating Feedback

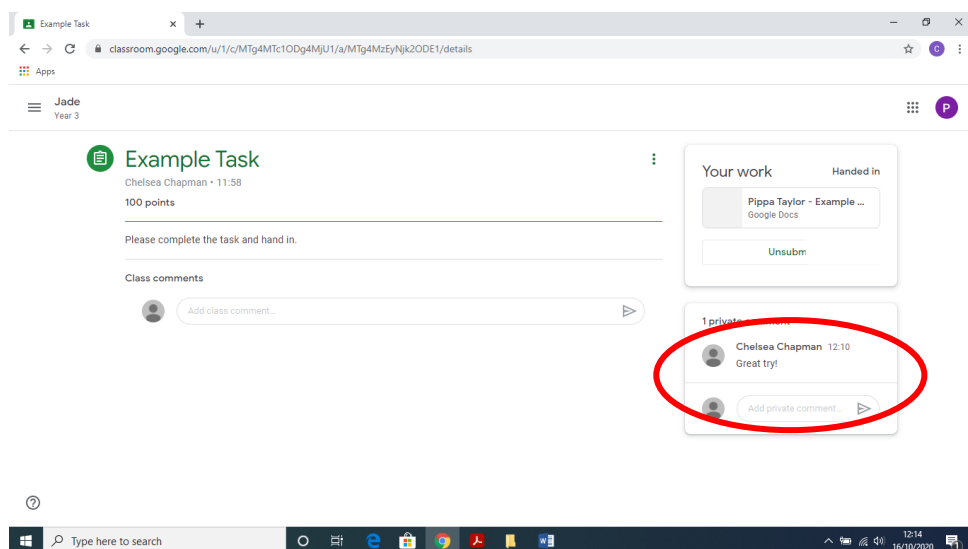

Step 1

Your child may receive comments on their work. To view these they will need to click classwork and then view assignment.

Step 2

You will then be able to see any comments your child's teacher has made.

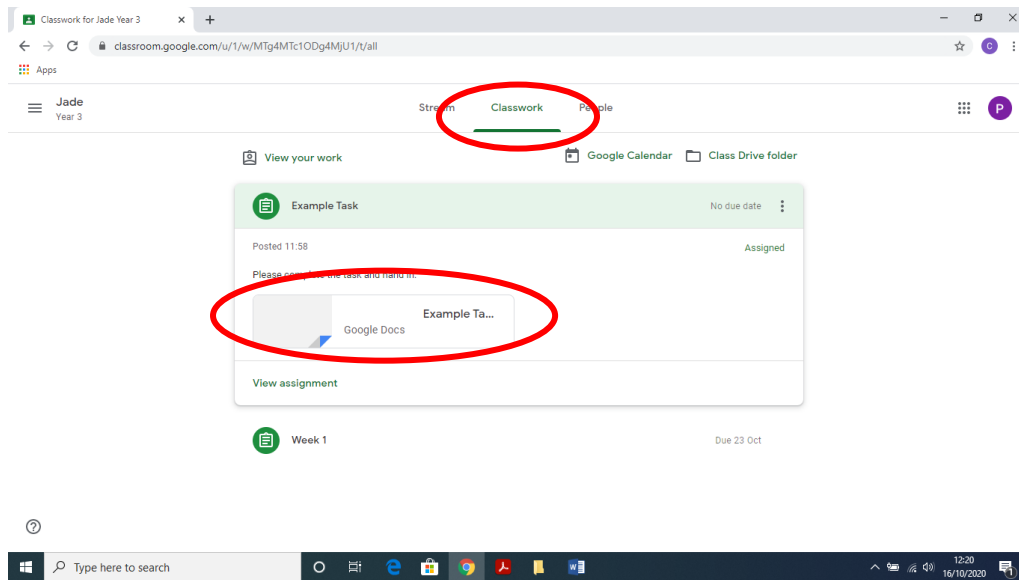

Your child may reply to comments if they wish. Please ensure these comments are appropriate.

Responding to Feedback

There may be occasions where your child has their work returned by their teacher so they can respond to feedback.

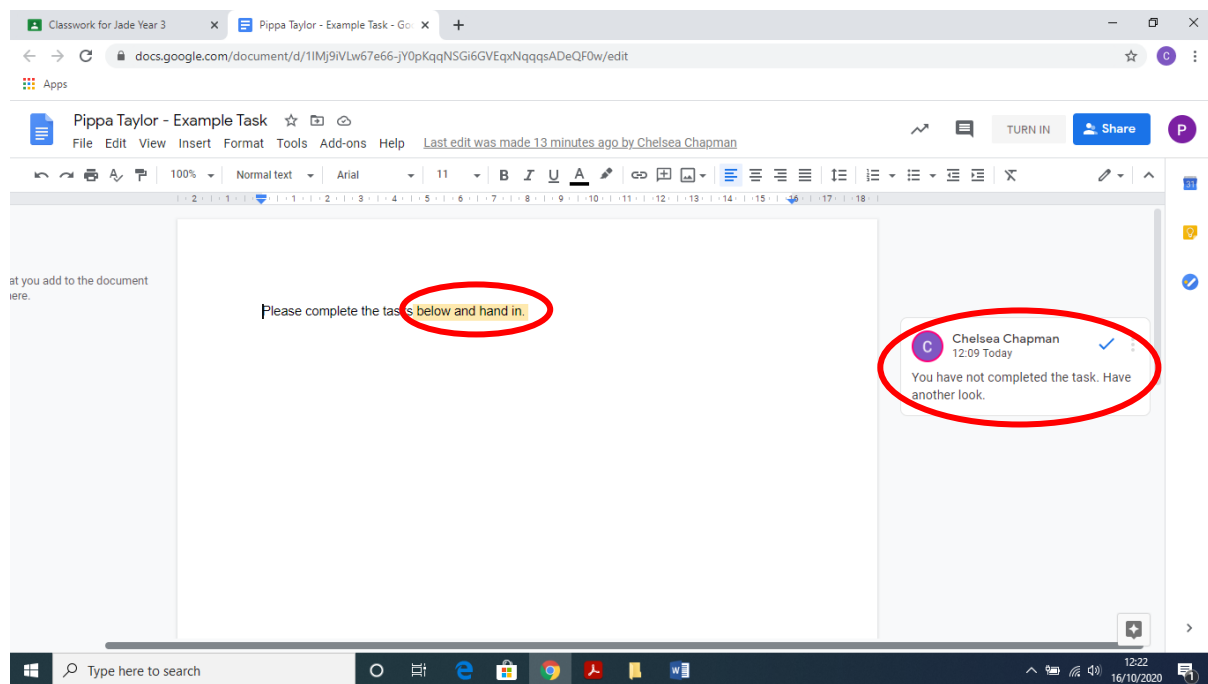

Step 1

Your child will need to find their work by clicking on classwork and then opening the task.

Step 2

Your child will then be able to see teacher comments relating to highlighted sections of the task.

Step 3

Children should make appropriate corrections and then click turn in in the top right. They will then be taken to a page where they can once again add any private comments and hand in their corrected work.

The screenshot shows a Google Classroom interface for a task titled "Example Task" assigned by Chelsea Chapman. The task is worth 100 points and has a deadline of 11:58. The instructions are "Please complete the task and hand in." The "Your work" section shows a Google Docs document titled "Exa..." with a "Hand in" button circled in red. Below this, there is a "1 private comment" section showing a comment from Chelsea Chapman at 12:10 saying "Great try!". Below the comment is an "Add private comment..." input field, also circled in red. The interface includes a top navigation bar with the user's name "Jade Year 3" and a bottom taskbar with various application icons and the system clock showing 12:25 on 16/10/2020.
