

Space 2 Talk

Space 2 Talk is for parents/ carers of children with additional needs to get support and advice in a relaxed and friendly atmosphere, no matter where you are on your SEN journey.

Perhaps you are unsure about how to ask for support for your child or you have just got a diagnosis and want advice about next steps. Alternatively, you may just want to have a cuppa with other parents that 'get it'.

Attend regularly or just come along as and when you want to get some advice.

Face to face and virtual sessions. We may also attend events run by other providers. See our website for full list of dates and venues
