WHAT HAVE WE LEARNT?

The children are continuing to work hard and embracing all the new learning. Class assembly rehearsals are and will be in full swing over the next week!

Maths – Over the past few weeks we have tackled fractions and specifically multiplying whole numbers by proper fractions, improper fractions and mixed numbers. The children have rose to the challenge and used their times tables knowledge effectively. *Challenge – $3 \times 5 \frac{1}{2} =$*

Literacy – This term in Literacy we have learnt how to use modal verbs, adverbs of persuasion and formal language, leading into writing a piece about civil rights. The children have shown great use of adverbs of possibility both orally and written.

Challenge- _____ it will snow soon. Which adverb of persuasion will you use?

Science – This term the children are learning all about properties of materials. They have been able to define some key words such as material, substance, property. They have also learnt the difference between raw and synthetic materials.

Challenge- Which material would keep you dry on a stormy day and why?
